

Accounts Payable

Payable Invoice Maintenance

Issue Resolved: Changed several programs' message boxes to read "LSS" instead of "SLS".

Monthly Check Register

Issue Resolved: The CD-001 JE wasn't being updated correctly.

Cash Management

H. C. Cash Receipt Entry (individual)

Issue Resolved: Error 13 440 CM08A when attempting to enter cash receipts in a facility that does not have cash receipts installed.

Issue Resolved: Revised the validation for the income type in the financial profile.

Health Assessments

Created new Health Assessments module.

Health Center Admissions

Admission History Report: Detail Status Report

Issue Resolved: Added the ability to print for a single Payer Type or MC for Medicare.

Create Health Center Resident Purge File

Issue Resolved: Added the ability to purge miscellaneous IDs.

Admit/Discharge Register: Current Resident Admit

Issue Resolved: Created a report that would show the current residents first admission.

Health Center Billing & A/R

Billing Code Master File

Issue Resolved: Medicare changes require a 3rd Modifier Code for some therapies if they exceed the allowance.

LifeCare Plus ver. 2.2
Release Notes
August 21, 2006

Enter Resident Charges

Issue Resolved: Error 47 4085 PB04A.

Generate Monthly Billing

Issue Resolved: Adjusted printing positions so the progress indicators are no longer hidden by controls or text on the screen.

Generate Pre-Billing

Issue Resolved: Enhanced the program to use the Rate Master File panel if a rate combination is not on file, instead of forcing the user to go to a different terminal and enter the combination.

Special Billing Rates (Print)

Issue Resolved: Resolved date conflicts between different years.

Print Medicare RUG Census

Issue Resolved: Revised the report to show the unqualified days as a separate section, "Not Qualified" (no RUG).

Import ASCII

Print Inventory Purchase History

Issue Resolved: The program name was reported incorrectly if an error were to occur.

Main Menu

Tools heading

Issue Resolved: Added the "Load GL Balances" function back to the main menu, under the Tools heading.

Jump To

Issue Resolved: If the new module does not have a month-end date, the previous date would be retained.

Issue Resolved: Screen Manager Error when using the "Jump To" feature to select an option in State Medical Claims if the state does not have the State Medical Claims module capability.

Marketing

Monthly Occupancy Status Report

Issue Resolved: Error 12 when Marketing isn't installed in a facility.

Master Files

Level of Care Codes

Issue Resolved: Added the ability to delete a RUG code.

Medicare Claims

Submitter Control Record

Issue Resolved: Added the ability to enter the NPI number.

Edit Medicare Claims

Issue Resolved: Added a drop down box with Send, Submitted, Hold, Paid, and Resubmit to allow the user to submit or hold claims.

Create Electronic File 837

Issue Resolved: Added the option to select specific types of claims.

Issue Resolved: If KX were the 3RD modifier on a part B claim it would drop the X.

Issue Resolved: When resubmitting just a few claims, the segment count was either wrong or it was missing the GE trailer segment. GE is the 2nd to last segment in the file.

Create Monthly Claims File

Issue Resolved: Error 11 4810 MC01A when a resident is missing an admission.

Issue Resolved: Made changes to add the status "S" for Send as a default when the Claims file is created.

Print UB92 Forms

Issue Resolved: When a UB92 has 2 pages the Admit Date would get formatted a 2nd time.

Print Medicare Claims List

Issue Resolved: Added the claim status to the report.

Other Insurance Claims

Other Insurance Master File

Issue Resolved: Revised program to allow several Payer Types to be created in the same claims file.

Other Insurance Claims Edit

Issue Resolved: Added the ability to add RUGS and 3rd Modifiers to other insurance Claims

Payroll

Payroll Final Check Register

Issue Resolved: Error 47 1605 PR05A if the name were to exceed 31 characters.

Year-To-Date Detail Register

Issue Resolved: When printing an individual employee, the message box would appear indicating that the employee had no checks for the current year and the grand totals were omitted from the report.

Local Tax Table (Print)

Issue Resolved: Error 29 8050 PR12LOP when printing the local tax table to a file.

Timeclock Interface

Issue Resolved: Error 12 2028 PR98A when trying to import the timeclock data.

Resident Management

Resident Profile

Issue Resolved: Error 11 1010 ZCOMBINE if a resident did not have a financial ID number on file.

Maintain Financial Party

Issue Resolved: When the main financial party is changed, the current billing would be transferred to the new main financial party but the history was left with the previous main financial party.

Occupancy Status Changes

Issue Resolved: The apartment master file wasn't getting updated when the Resident switches apartments.

Trust Funds

Transaction Entry & Journal

Issue Resolved: When deleting a check or other entry that shows as a negative and is a "W" withdrawal code, the program subtracts the amount from the total instead of adding it.

Trust Fund Account Inquiry (Hard Copy)

Issue Resolved: The report was missing the totals.

Check Maintenance

Issue Resolved: Error 11 6120 TF12A when entering a check for a resident without a balance.

Print Monthly Statements

Issue Resolved: Error 12 when TF isn't installed in the facility.

Miscellaneous

Issue Resolved: Changed SLS to LSS and updated the phone and fax numbers in the error routine.

Issue Resolved: Changed instances of the SLS username to LSS. The login will appear as LSS (rather than SLS) on all HIPAA logging reports where LSS has dialed in.

Issue Resolved: Resolved miscellaneous issues with the Prior Year Data Copy program, including adding a facility-specific capability and enhancing the program on Unix systems.

Issue Resolved: Fixed multiple occurrences of an Error 12 in form printing programs (i.e. 1099 print, W-2 print, etc.).
